Welcoming ORECS

E-Global Group of companies is Proud to announce that we have joined hands with PMS InfoTech to create a strategic partnership to conquer the global market. The magnum opus of PMS InfoTech is ORECS, which is one of the most unique & smart industrial management software available in the country. Developed with keeping the customers & the industry problems in mind. The targeted & focused outlook of ORECS allows it to completely transform the way that companies operate. Their dedicated industry-centred solutions tackle specific problems that the industry players face. Some of their most notable modules are developed for machine rental industry & construction industry. All of their modules are designed to help all businesses to manage their operations more efficiently & accurately. The smart reporting, regular reminders, & easy billing modules allow the management to concentrate less on maintenance & follow-ups more on the growth of their company.

E-Global is aiming to utilize their industry experience & leverage their global presence to put ORECS on the global map. The industry-centred approach of the software makes it perfect for all businesses, regardless of the region they operate in. The teams have spent decades working on the field to accurately understand what are the specific issues that the industry players face on the regular. With the help of ORECS problems with billing, inventory management, sales & supplier follow-up will be a thing of the past. We are proud to start this brand-new year with our new partners, to further succeed & prosper together as a family.

My experience at E-Global

by **Pankaj Jha** (Business Development Manager, Export)

I joined **E-Global** Group of Companies recently & have experienced a very warm welcome from the organization.

The group has a very professional approach towards everything with a human touch. The Management is very supportive, flexible, down to earth, forward looking, open to new ideas & ready to adapt to new things. The group has been adopting cutting edge technologies & thus is a system driven company with an open culture. I have received tremendous support from the organization in any problems faced by me.

Also the peers have been very supportive. The training that is being imparted to me have been very helpful in understanding the company, its various domestic & global operations & its products.

My stay in Ahmedabad has been very comfortable & the organization has taken care of me very well. I hope that I am able to make meaningful contribution to the company through my hard work once I complete the training. I hope to have a mutually beneficial long term association with the organization.

**DID
YOU
KNOW?**

» Even in the ancient times, mankind knew the necessity of an accurate system of weights and measures, and the importance of their honest handling. There are several verses in the bible, that state the importance of honest and trustworthy methods of bartering produce. These verses showcase the prophets denouncing the use of false measures, and the punishment for breaking such laws was severe.
